"I'll Remove ALL The Negative Items Off Your Credit Reports And If I Can't...I'll Pay You \$10,000!"

98% of all credit repair companies out there are scams. Don't be a victim. MIC Credit Repair gets the job done. They are 100% legal and also provide you with a FREE quality education through the process by providing audio, reports, and video.

FOR IMMEDIATE RELEASE

PRLog (Press Release) - Mar 25, 2009 - "Who Else Wants to Get Their Credit Repaired Starting in Just 17 Minutes (Or Less), Using a Former Credit Bureau Insider ... And The Best Part is ... If I Fail You Get \$10,000 Wired Directly To Your Bank Account!"

"This headline is the first statement you are going to see when you visit [www.miccreditrepair.com](#) and at first it makes you very skeptical", according to Kevin.

— Credit repair scams are a dime a dozen in this economy, especially right now. Most people spend hours a day and months of their own personal time trying to find a legit company that can do the job. There are honest credit repair companies out there, but even they will admit that they can only remove about 60% of the items found on a credit report.

"That's when I found Lang Smith and his company MIC Credit Repair."

According to Kevin, who is not disclosing his last name for identity theft protection, he was able to speak with Lang directly but he was completely surprised with his sales pitch. "He didn't have one. Every company likes to sell you on their product to the point that it makes you explode with anger. Lang didn't do any of that."

"He told me that I should study his website completely and he would be more than happy to answer any specific questions I had about his service. Then he gave me a bunch of free education. Can you believe that? What company offers to give you free education instead of trying to sell you on their service?"

Certain sources have revealed that MIC Credit Repair does credit repair for mortgage companies, law firms, and even other credit repair agencies. Kevin said he went on to study Lang's company website but then made his way over to Lang's other website [www.ExtremeCreditRestoration.com](#) where he got his free education.

If you go to Extreme Credit Restoration you will get a free report called "Credit Repair Secrets REVEALED". You will get several audios talking about the credit industry as well as some frequently asked questions from his clients that he has recorded and answered for you to hear.

"I was really impressed with the insane amount of value Lang gave me to review just for visiting his website. The report was 26 pages long and even if I had decided not to use his service I would have learned enough information from that one report to help me with my credit problems to date."

Kevin had almost given up on trying to find a reputable company to repair his credit in this economy. He has already been taken for over \$2,000 at this point from other companies making false claims. He said what made him take a second look at MIC Credit Repair was that they offered a \$10,000 guarantee if they couldn't do the job.

Kevin went on to talk about how this economy is suppose to be getting better but so far he hasn't seen that change. People around him are still losing their jobs and just trying to support their families. This is a time where your credit should be a top priority in life since you can't get anything anymore without it.

He asked Lang about this bold claim and according to Kevin, Lang said, "I had to come up with a way to break into this market with an honest service that for once, actually did what they are getting paid to do and that is to repair your credit completely, not just 60%. Since 90% of all credit repair companies are scams I figured people would have to start paying attention to the guy offering to pay you \$10,000 if he failed to do the job. I owe all my knowledge to my partner really who was a former Equifax insider for 18 years. He taught me everything I know now and I'm very grateful. If it wasn't for his signing on to my company when I first built this, I would have never been able to make the guarantee that I make still today."

Lang also went on to say, "I'm the original creator of the \$10,000 guarantee. Sure, a lot of people have tried to copy my claim but it will just end up hurting them in the future when they have to pay that money out."

Kevin went on to say that he definitely signed up with MIC Credit Repair without being hassled by anyone day after day until he made a purchase. To this day he is still in the program and has been for 3 months now. So far MIC Credit Repair has removed 7 collections, 1 tax lien, 1 bankruptcy, 17 inquiries, and 4 late payments.

Kevin goes on to say he highly recommends MIC Credit Repair for all your credit needs. "I'm so glad I decided to take a closer look. I almost gave up but I have never heard a company offer to pay you such a large sum of money if they fail. It turned out my gamble paid off big time. Thanks Lang."

MIC Credit Repair is the original creator and pioneer of the \$10,000 guarantee. For more information about their services you can visit them at [www.miccreditrepair.com](#). You can also go to [www.extremecreditrestoration.com](#) where they will provide you with free credit education.
