The North American Centre offers an excellent selection of offices space in the up and coming business district of North York. The unique architecture allows for various offices sizes to suit all manner of client needs, with the majority of suites offering a stunning uptown view.

Our centre thrives on building exceptional rapport with clients, starting with our elegant reception area to welcome all guests. The professional staffing at North American Centre provides the best in administrative, clerical and IT support. We go above and beyond to offer additional services including catering, event coordination, courier, errand running, and limousine services. Clients have access to several fully furnished meeting spaces including boardrooms and guest offices, as well as training and classroom facilities. LCD and video conferencing are also available.

The North American Centre is conveniently located near major banks, shopping centres, and several vital commuter routes including the Finch GO bus terminal. For the green-minded individual, the Yonge subway line is directly accessible through the concourse level without any need to step outside. Several auto-share locations are also within close proximity. Those who prefer the outdoors will appreciate our spacious outdoor terrace, enclosed by our dual towers and gracefully designed water fountain. Several restaurants and eateries are available at our concourse level. Other amenities include a salon, dry cleaning, florists, and a newly refurbished fitness centre.

The Toronto Centre for the Arts is within a short walking distance south of our complex. The proximity to the full service Government of Canada building also makes this an ideal location for all types of business.
