Tax Relief

The road of life is not always easy to navigate through. When your tax problems cause you undue stress and anxiety, you need the expertise of a licensed tax professional to protect your financial and emotional well being.

Debt Logic's teams approach to representation is our willingness and dedication to work with you from beginning to end to meet these goals so that the representation you receive is the kind that you want and deserve. At Debt Logic we will refer you to a staff and advisory board that has worked with the Internal Revenue Service and state taxing authorities for decades.

Unlike many companies that are not run and staffed by attorneys and CPAs, Debt Logic provides more options, more stability and more accountability to the client. We have partnered with Cal Bomar who is a former IRS Chief Counsel lawyer who has extensive experience in tax litigation, audits, obtaining IRS tax relief through offer in compromise, installment agreements, penalty abatement, liens, levy and representing clients in all other tax matters. He leads a team of former Assistant U.S. Attorneys, experienced tax attorneys and certified public accountants. We are the only tax resolution firm in the nation that can say that our professional and support staff is guided daily by a former IRS Chief Counsel lawyer.

Program Benefits

1. Solve Your IRS Tax Problems
