Based upon the recent shocking testimony of supposed "State Bar Investigator" Thomas Layton in the United States District Court — where Layton was unable to introduce any evidence in support of Kamala D. Harris' allegations against Mitchell J. Stein — the Firm will be initiating motions for contempt, for Rule 11 sanctions and for Section 128.7 sanctions due to Kamala D. Harris' fraud on three courts. Mr. Stein has given Ms. Harris and her criminal cohorts until January 22, 2012 to dismiss all cases against Mitchell J. Stein and his clients; and to pay all clients of the Firm a minimum of $100,000 each for their trickery on courts in Florida, New York and California, and their trickery practiced against citizens across the country. Safe harbor notices have been received by the California State Bar and if they do not responded to, the courts will be asked to intervene. To review the California State Bar's admissions that they have no evidence supporting the allegations made by Kamala D. Harris in Los Angeles' Van Nuys court on August 15, 2011 and made by Ms. Harris 7 times thereafter. View/download file here.

Furthermore, Kamala D. Harris has now been sued by a federal bankruptcy trustee in New York for her misuse of "police powers" in interfering with victims of the Bernard Madoff scam. This is substantially similar to her interference with victims of the national banking scams, where she has intentionally and brazenly interfered with the rights of any United States citizen she or Mr. Obama can find. For a copy of the pleadings where Kamala D. Harris is currently being mauled by the New York Trustee, please carefully review this Website in its entirety.

As has been reported on this Website since 2010, be advised that the Firm is not affiliated in any way with persons named "Noel," "Lauri," "Erica," "Wendy," "Stuart," "Vito," or "Chris" and such persons are not authorized to speak for the Firm. Further, the Firm is not affiliated with persons called "RDSM", "MLA," "K2" or Philip Kramer. We have posted this notification at the request of numerous clients of the Firm as well as members of law enforcement and the media nationwide.

Please read below the important warning that has been posted on our website since October, 2010 when the federal investigation into all fourteen (14 bank servicers) began.

Fraud Alert: Numerous California consumers have reported to the firm that persons named Matt Davis, Mass Litigation Alliance, Mass Litigation Advisors, K-2 Law, Brookstone Law, Vito Tochia, and persons under their control are purporting to speak for the Firm (names of these persons have been reported to the Firm as "Noel," "Lauri," "Erica," "Wendy," "Stuart," "Phil," "Vito" and "Chris"), however, such persons are not authorized to speak for the Firm).The Firm is unaffiliated in any way with these persons or with anybody owning or controlling the activities of these persons, and urges you to read the disclaimer set forth on the Home page of (and elsewhere on) this Website. This Website (www.dobielaw.org) is the only Website authorized by the Firm, as confirmed by the California State Bar (www.calbar.org). The Firm has reported all misconduct to the appropriate authorities. These reports are emblematic of the industry-wide problem of identity theft and fraud, which are damaging to home owners, because the ultimate wrongdoers are the banks — as the banks have now admitted in public press releases, as the banks have admitted in various public securities filings and as the Comptroller of the Currency has now admitted as of April 11, 2011 (see "as of" page of this Website) — and lawyers with poor judgment and a reckless approach in representing consumers have no business interfering with the public's need for restitution and justice as a result of this bank-caused crises.

However, the Firm has been asked by hundreds of homeowners to provide the general public with access to certain documents filed with the Court. The Firm's publicly filed pleadings regarding this matter are available in the records of the Los Angeles Superior Court which are available to all "journalists" and all members of the public. The general public — including alleged "journalists" and actual journalists — are encouraged to review the Court's files. However, at the request of innumerable home owners, the Firm has reproduced — below — one affidavit filed in Court so that the public does not have to travel to Court and pay copying charges in order to simply obtain affidavits which are being sought. The Firm is continuing to take and respond to all telephone calls regarding this matter. If you are attempting to contact the Firm, remember you can always fill out the form found on the "Contact Us" page, and this is an alternative way to receive a fast response to your inquiry or request. Otherwise, please be patient if you chose to contact the Firm by telephone.

MARTINEZ AFFIDAVIT

August 8, 2011

Clients and Friends:

The past three years have been invigorating, challenging and fulfilling for me.

While the beginning of those years saw me coming to grips with what my former clients, the nation's banks, had done to the American citizenry, they also reminded me of how rewarding it is to work as a lawyer for Americans.

I had never intended — not even a little bit — to return to the active and full time practice of law. You all know that Mitchell J. Stein, having represented billionaires and achieved in 18 years what others only dream of achieving, would have been more than happy to "hang up his cleats" forever. As history has shown us, the Lord always has different plans in mind . . . and boy did he have one for me. And now, here I am, representing all of you as a partner in a National Law Firm that is expanding at a rapid pace in order to keep up with your needs in defending you and your homesteads from the banks' nationwide fraud.

These are tough times indeed and they will continue to be rough and grueling. There are mountains in our way. But the passion of you – the Firm's clients – in defending your homesteads has made me proud: Proud to represent you the people, and proud to watch the unrivalled tenacity of Americans in the face of corporate greed and corruption.

The Firm and I have been given favor in meeting many new friends who have energized us in leading the charge.

Apart from already watching many of our client, home owners, retain their homes as a result of the Firm's legal representation, perhaps the most significant personal development during that time has become my partnership and friendship with former Florida prosecutor Michael S. Riley, without whom I would have never been able to nationalize the Firm's reach.

I offer this open letter as a thank you to Mike for his passion, his integrity and his good solid sense.

Make no mistake. The future holds unmatched challenges for all of you in keeping your homesteads and in stopping the nation's banks from completing the largest fraud in United States corporate history.

I assure you the Firm is honored to represent you, its clients, and the Firm is pleased to have received the help of so many new friends and supporters.

As you all know from reading the news, we are now entering the "thicket" of the real fight against the banks – bank institutions that were previously the bedrock of society and are now its most controversial nemesis – and it is at this time that I wish to thank and assure all of you that, together, we will win this battle.

Just hold on tight, and rest assured that, with the help of the Good Lord, we will prevail and the scales of blind justice will tip decidedly in your favor.

In behalf of the Firm and my partner Mike Riley, I wish you God's speed and great favor, and I thank you for the confidence you have shown in our Law Firm.

As we now enter the most crucial part of the journey in battling a crisis America has never before seen and will never again see, I say to all of you: ***Semper Fi***.

"The foregoing letter was prophetically written and posted 9-days prior to Mr. Stein's birthday, a date upon which the Federal and State governments began to demonstrate in the open (and for all to see) how corrupt the Obama Administration has actually been in fighting bank corruption nationwide. It was on August 17, 2011 that Kamala D. Harris "raided" the Firm based upon a false affidavit of her "investigator" Thomas Layton — confirmed false by Mr. Layton himself in federal district court during the holidays of 2012. The prophetic nature of the foregoing letter does not replace the fact that certain persons mentioned in the letter as to whom the American home owners had placed their trust were also a part of the corruption. The Firm has acted on this information. The foregoing letter will always be posted here as accurately reflecting the predictions of Mr. Stein as of August 8, 2011, which all became true as the corruption being experienced by all of America played itself out throughout the balance of the year 2011.

New Litigation

Given recent rulings and extra-judicial discovery the Firm is aware of, the Firm shall be launching significant additional litigation in behalf of thousands of clients nationwide. This litigation will be entirely different than the traditional litigation against financial institutions for one reason: The unlawful conduct on Wall Street has now been unearthed to the point that it is indisputable. Stay tuned for updates in this arena.

The consultations given by the firm are at no charge.

In view of the federal banking crisis and the actions of elected officials in California, Spire Law Group, LLP is receiving massive intake of calls, solicitations and inquiries. In this climate of viral news, Spire Law Group, LLP has seen or heard many opinions of others claiming to be involved with or associated with Spire Law Group, LLP. Some of the calls, solicitations, inquiries and opinions are legitimate homeowners seeking to protect themselves or legitimate associates of the Firm. Others are persons acting without any authority, wishing to capitalize on what we started in March 2009. Please be aware that no person is authorized to speak for Spire Law Group, LLP absent an authentic written instrument demonstrating their consultancy or relationship with the LLP. Furthermore, to the extent the Firm's representation complies with applicable law and outstanding interim orders Spire Law Group, LLP does not represent anybody. Since 2010, the Firm has repeatedly cautioned that it is not affiliated with all of the persons conducting illegal marketing activity. Indeed, the Firm warned — and continues to warn — that it does not represent any person absent first undertaking a binding agreement to do so. Lastly, other than comments on this website, Spire Law Group, LLP will not officially comment on any aspect of the federal banking crises other than in pleadings filed in a court of law or in interviews with major, reputable, and credible news agencies. Thus, any other person claiming to speak for Spire Law Group, LLP is in fact not doing so, until further notice that you can only receive from this Website.

In response to the lawsuit filed in August, 2011, the Bank apparently told CBS that the Bank is now unaware of the lawsuit. Yet, the Bank's Keith Klein (at Bryan Cave — the Bank's law firm) acknowledged he was aware of the lawsuit back in August, 2011, and the Bank has entire departments devoted to monitoring the public records daily to learn of new lawsuits. This is called "lying, cheating and stealing." It may not be nice or kind to call Bank of America liars, but the FDIC has already proven the Bank liars as have responsible State Attorneys General. At this Firm, we play it straight. Bank of America lies on a regular basis, they forge signatures on a regular basis, and you should assure they are not doing it to you in stealing your home before you lay down and give up your home to thievery.

The Firm is now working closely with CBS in breaking a national story on bank and governmental wrongdoing involving state and federal corruption in the sectors of health care and banking. There is no action that can be taken by any court stopping the Firm from completely and fully breaking this story with relevant news agencies. The evidence to be produced regarding the Obama Administration and its "family" alliance with AG Harris will literally shock the conscience of the American people. It will include voice mail recordings and other evidence heretofore unseen by any member of the public. Stay carefully tuned to this story, and keep in close contact with the Firm so that you are aware of any important developments. Go back through CBS' archives for 2011 to see the focus of investigative reporting regarding governmental corruption involving current administrations.
