## About Us

National Advocacy Program is an organization providing honest and unbiased information to troubled homeowners. We understand the confusion and frustration these trying times may bring, and offer a single point of contact for assistance and information. Through the help of our highly trained professionals, and with a wealth of knowledge and experience in this field, NAP offers FREE, no-obligation consultations for homeowners under water with their mortgage.

National Advocacy Program will work to understand your situation, and help you get into the executives office for a speedy process to more affordable payment terms.
