(1) Within ninety (90) days, the Board shall adopt, implement and thereafter ensure adherence to a written Business Plan for the Bank covering at least a three-year period. The plan shall establish objectives for the Bank's overall risk profile, earnings performance, growth, balance sheet mix, off-balance sheet activities, liability structure, capital adequacy, reduction in the volume of nonperforming assets, product line development and market segments that the Bank intends to promote or develop, together with strategies to achieve those objectives and, at a minimum, include:

- (a) development of strategic goals and objectives to be accomplished over the short- and long-term, including the Bank's growth or expansion plans and short- and long-term merger or acquisition strategy, if applicable;
- (b) an identification of new or expanded product lines that will be utilized to accomplish the strategic goals and objectives;

- (c) a management employment and succession program to promote the retention and continuity of capable management;
 - (d) financial forecast, on a quarterly basis, to include projections for major balance sheet and income statement accounts, earnings, profit goals, and desired financial ratios over the three-year period covered by the Business Plan;
 - (e) an assessment of the Bank's present and future operating environment, the types and amounts of investment securities the Bank plans to hold, and policies and procedures to address the Bank's investment portfolio, including the overall size as a portion of the balance sheet, minimum pre-purchase due diligence requirements, minimum quality requirements, degree of interest rate sensitivity, and concentration limits (by obligor, tenor, types, and other customary categories). The composition of the Bank's investment securities portfolio shall take into consideration any concentrations in the Bank's lending activities;
 - (f) an evaluation of the Bank's internal operations, staffing requirements, Board and management information systems and policies and procedures for their adequacy and contribution to the accomplishment of the goals and objectives developed under (1)(a) of this Article;

(2) Upon adoption, a copy of the plan shall be forwarded to the Assistant Deputy Comptroller for review and prior written determination of no supervisory objection. Upon receiving a determination of no supervisory objection from the Assistant Deputy Comptroller, the Bank shall adopt and adhere to the Business Plan.

(3) Once the Business Plan is adopted, the Bank shall not make a material change to or significantly deviate from the Business Plan unless the Bank has first given the OCC at least forty five (45) days prior written notice of its intent to do so, and obtained the OCC's prior written determination of no supervisory objection to such action. The Bank's request for prior written determination of no supervisory objection to a material change or significant deviation shall include, at a minimum,

- (a) an assessment of the adequacy of the Bank's management, staffing levels, organizational structure, financial condition, capital adequacy, funding sources, management information systems, internal controls, and written policies and procedures with respect to the proposed significant deviation, and
- (b) the Bank's evaluation of its capability to identify, measure, monitor, and control the risks associated with the proposed significant deviation.

(4) Once the Bank receives prior written determination of no supervisory objection from the OCC for a material change to the Business Plan, the Bank shall revise the Business Plan to reflect the change and Bank shall implement and thereafter adhere to the revised Business

Plan. If, after receiving supervisory non-objection from the OCC for a significant deviation from or change to its Business Plan, the Bank decides not to make such change, the Bank shall provide the OCC with written notice of its decision.

(5) For purposes of this Article, significant deviations or changes that may have a material impact on the Business Plan include, but are not limited to, any significant deviations from or material changes consistent with the description provided in Appendix G (Significant Deviations After Opening) of the “Charters” booklet of the Comptroller’s Licensing Manual (February 2009), and include in particular, the following:

- (a) growth in the Bank’s asset size that is more than ten percent (10%) greater than the projected growth set out in the most recent Business Plan for which the Bank has received prior written determination of no supervisory objection from the OCC;
- (b) an expansion in any existing on or off balance sheet product, service, or activity that is more than ten percent (10%) greater than the Bank’s projected growth in such product, service, or activity set out in the most recent Business Plan for which the Bank has received prior written determination of no supervisory objection from the OCC, provided that,
 - i. the ten percent (10%) will be measured based on the dollar amount of the product, service, or activity of the most recent year-end Report of Condition and Income (“Call Report”), unless the activity involves assets risk-weighted fifty percent (50%) or less, in which case a variance of more than twenty-five percent (25%) shall be deemed a material modification; and

- ii. only those individual products, services, or activities that represent fifteen percent (15%) or more of total assets or fifteen percent (15%) or more of total revenue as of the most recent year-end Call Report shall be subject to this provision;
- (c) changes in the products and services offered, the geographic markets served, the funding sources used, or the composition of funding compared to those set out in the most recent Business Plan for which the Bank has received prior written determination of no supervisory objection from the OCC;
- (d) offering any product, service, or activity that the Bank, in the most recent Business Plan for which the Bank has received prior written determination of no supervisory objection from the OCC, has stated it would not offer, including making loans, in any amount, of types the Bank has stated it would not offer; and,
- (e) any change in the Bank's senior management, policies, procedures, or operations, including any change in operations resulting from changes in external factors, that may have a material adverse impact on the Bank's operations or financial performance.

(6) The Board shall ensure that the Bank has senior executive officers and other management with sufficient experience and expertise to implement the Business Plan in a safe and sound manner.

(7) The Bank shall not offer or expand an existing product or service or enter into a contract to offer a product or service unless the Bank has appropriate management, staffing,

systems, and risk controls fully in place for the product or service, including but not limited to reports of sufficient quality from program managers, and performing ongoing due diligence, including monitoring and review of the financial condition of third party vendors in accordance with OCC Banking Bulletin 2001-47 (Third Party Relationships).

(8) The Board shall ensure that performance under the Business Plan is reviewed quarterly. The Bank shall submit to the OCC within thirty (30) days after the end of each calendar quarter, a Business Plan variance report detailing the Bank's compliance with the Business Plan and an explanation of any material deviations.

(9) The Board shall ensure that the Business Plan is updated annually, no later than the end of the month of November each year, to cover the next three (3) year period. The Bank shall submit the updated annual financial projections included in the Business Plan above to the OCC within ten (10) days of completion. If there is no material change to the Business Plan in the annual update other than the updated financial projections, the Bank shall so certify to the OCC within ten (10) days of the Board's review and update. If the Bank proposes a material change to the Business Plan in the annual update, the Bank shall submit the amended Business Plan to the OCC for review and supervisory non-objection and shall not implement any proposed material change until it has received written supervisory non-objection from the OCC.

If the Board's evaluation does not demonstrate that the servicer

- (1) Although the Board has agreed to submit certain programs and reports to the Assistant Deputy Comptroller for review or prior written determination of no supervisory objection, the Board has the ultimate responsibility for proper and sound management of the Bank.
- (2) It is expressly and clearly understood that if, at any time, the Comptroller deems it appropriate in fulfilling the responsibilities placed upon him by the several laws of the United States of America to undertake any action affecting the Bank, nothing in this Agreement shall in any way inhibit, estop, bar, or otherwise prevent the Comptroller from so doing.
- (3) Any time limitations imposed by this Agreement shall begin to run from the effective date of this Agreement. Such time requirements may be extended in writing by the Assistant Deputy Comptroller for good cause upon written application by the Board.
- (4) The provisions of this Agreement shall be effective upon execution by the parties hereto and its provisions shall continue in full force and effect unless or until such provisions are amended in writing by mutual consent of the parties to the Agreement or excepted, waived, or terminated in writing by the Comptroller.
