

## Back Office Law Announces Name Change to Consumer Assistance Project to Better Reflect Services Now Being Offered Directly to the Consumer

September 18, 2013 05:16 PM Eastern Daylight Time

CORAL SPRINGS, Fla.--(BUSINESS WIRE)--Back Office Law is pleased to announce the completion of a recent corporate name change to Consumer Assistance Project. Back Office Law specializes in successfully assisting law firms and individual attorneys with their client's needs, effectively enabling legal professionals to expand their practice area in conjunction with a network of CPA's and real estate experts. Consumer Assistance Project ([www.ConsumerAssistanceProject.org](http://www.ConsumerAssistanceProject.org)) is a non-profit 501(c) (4) organization, expanding on the expertise of its predecessor by allowing at-risk consumers to capitalize on these services directly.

This move underscores the substantial demand for quality and efficient consumer services which empower those in debt crisis with much needed alternatives. Our mission as a non-profit is to guide our members through financial instability, expand their education and understanding of debt management, minimize and control overwhelming and erroneous debt issues, and most importantly to navigate them on a course of fiscal responsibility.

Due to extensive consumer demand, Consumer Assistance Project's main focus is on the elimination and reduction of all types of student loan debt. Our debt evaluation and audit process identifies the best qualifying program for the maximum savings through forgiveness or restructuring. Once a student loan portfolio has been analyzed, a determination is made from over 60 programs varying by state, including the option of challenging the validity of the debt due to errors, misguidance, or improper allocation of funds. Our research team fights against wrongful debt and will dispute any loan where its elements or components have placed an unfair burden on the consumer.

Consumer Assistance Project views the student loan debt crisis as a hazard created by a system that was clearly not designed to operate with the best interest of the consumer in mind. With student loan default rates at all time high levels, decisive action must be taken to counteract the common mishandling of these loans from creation to collection existing in the current system today. As part of membership services, Consumer Assistance Project also includes access to attorneys and CPA's, the availability of legal documents and forms, and assisting with the filing and recording of these documents. All members completing the Consumer Assistance Project program will be provided credit repair services at no cost. The goal of Consumer Assistance Project is for our members to leave our program with a clean slate and improved financial health.
