Credit Problems?

Consumer protection counsel laws are designed to protect consumers like you from predatory lenders, overzealous debt collectors, careless credit bureaus, and other harmful business practices. At Consumer Protection Counsel USA, P.A. we work to enforce existing consumer protection statutes to resolve consumer problems with:

-  Unfair collection practices/debt collection harassment;
-  Unwanted telemarketing calls (robocalls) and spam texts;
-  Credit reporting problems; and/or
-  Consumer fraud.

Fighting Fraud

Consumer litigation focuses on the rights of individual consumers and may involve claims relating to unfair and deceptive trade practices, credit cards, privacy issues, fair debt collection practices, truth in lending, and other disputes under state and federal consumer protection laws. The protections for the consumer stem from both common law and statutory schemes. This unfolding area of the law has evolved in response to the unfortunate way many large corporations have decided to treat their customers. Consumers often need competent legal counsel to stand up to abuse by massive companies concerned only with making a profit.

Debt Collectors

We can help you deal with harassment by creditors and debt collectors. The Fair Debt Collection Practices Act prohibits debt collectors from using unfair, deceptive, or abusive practices in their attempts to collect money from you. The FDCPA applies to anyone who regularly collects debts, including collection agencies and collection lawyers. When you hire an attorney to represent you, the debt collector is required to deal directly with the attorney, relieving you of the hassle and headaches associated with taking the debt collector's calls. You have the right to sue a collector in a state or federal court within one (1) year from the date the law was violated. Courts will often award reimbursement of attorneys' fees in such cases.
