

Wealth Network Solutions Offers Help With Debt Resolution and Financial Relief

PRESS RELEASE - MAR 22, 2016 18:31 EDT

Site offers people ways to financial independence

Seattle, WA, March 22, 2016 (Newswire.com) - A new site, [Wealth Network Solutions](#), helps people resolve their debt and find a path toward financial freedom.

The site highlights some of the different kinds of debt consumers might face, along with the consequences of default. Credit cards, it notes, cause much of the debt in the United States.

"They allow cardholders to borrow money as needed, up to a certain limit," the site wrote. "In exchange, debtors promise to repay the full amount borrowed, plus interest, to the creditor. However, for many people the convenience of credit cards turns into a negative, allowing them to rack up debt that they cannot repay."

"Millions of people are trapped in a cycle of debt and they don't know how to get out. What we do is help them find the right solution for any type of debt. We offer multiple services that can assist them."

SHERRIDEN MAY, OWNER

Student debt is another major form of debt, the site wrote.

"If you don't make your loan payments, you risk going into default," the site wrote. "Defaulting on your loan has serious consequences. Your school, the financial institution that made or owns your loan, your loan guarantor, and the federal government all can take action to recover the money you owe."

May said [Wealth Network Solutions](#) has services that can help with credit card and student loan debt, as well as others. In addition to helping people resolve their debt, the company also offers affiliate packages, allowing people to start their own business to help those in debt.
