Company Information

Our goal is to provide our clients with an affordable program to get back on their feet financially and find a real solution for the strain and stress caused by debt. We offer honest and informative advice, outstanding customer service, and a proven debt settlement process that can ensure our clients become debt free as quickly as possible.

What makes Capital Debt Relief different then other settlement companies?

Capital Debt Relief provides our clients with a savings account that the client controls. Unlike most other settlement companies that retain control of their clients accounts, its our belief that when consumers join the program, they are serious about cutting their debt and need to be *responsible and dedicated to the program.*

The decision to reach out for help with your debt is not one that's easy to make. You struggle along while your creditors are turning up the heat. And now you're at the point where the late fees, penalties and interest expense make it impossible to keep your head above water.

See your potential savings in minutes..
