 TASC® boasts a member population of 82 and counting, and will continue the search process so that you can find certified debt settlement companies to use when you are not yet a member of TASC. You can use the spreadsheet below to view a list of companies, or enter their name in the search box below. Searching for the word "debt" will bring up all companies with the word "debt" in their name.

You can also search for all TASC members that have earned Accreditation status. Accreditation is the process whereby an independent third party company, approved by TASC, conducts an on-site audit of the firm's practices and procedures to verify that members adhere to TASC standards. To become Accredited, Members must have their audit conducted at an official date.

For more information, please visit our membership resources.
