How credit card debt settlement works - An example

Let's say you owe a total debt of \$100,000 on 5 credit cards. You are finding it difficult to keep up with the minimum payments. You have consulted a credit counseling agency but the monthly payments they negotiated with your creditors were too high. You don't want to file bankruptcy as you find it too damaging in the long term and wish not to involve the court. So, finally you decide to work with a credit card debt settlement company, Integrity Debt Services, LLC. Here are the 4 steps on how you could settle credit cards and pay off your balances. Financial freedom.

- 1) Once you have stopped paying your creditors we will have you deposit a certain amount monthly into a savings account (i.e. a trust account that Integrity Debt Services, LLC creates on your behalf).
- 2) No more handling of collection calls: While you start falling behind on your payments, you may receive collection calls, which are effectively handled by our representatives. We don't leave it to you to handle such harassing calls on your own. We are truly partners with you until you have reached financial freedom.
- 3) Negotiation starts soon after: As you accumulate a good amount of dollars into the trust account, our negotiators at Integrity Debt Services, LLC start negotiating with your creditors one by one.
- 4) We reduce your Debt by 40-60%: After tough negotiations with your creditors, your creditors agree to accept a reduced amount, normally around 40-55% of your outstanding debt.
- 5) After the program is complete: The final step is to repair your credit file. Our credit repair department now goes to work to clean up your credit report and get the best & highest possible FICO score. You are now debt free and released from all the financial stress.
