Debt Settlement

Debt Settlement is a legal process that facilitates the negotiation of debt settlement between the debtor and the creditor. It is evident that numerous people are not able to pay back their debts even though they have the intention to pay. For this reason debt settlement is an alternative to negotiate with the creditors in order to reduce current outstanding balances by a certain percentage.

As experienced debt settlement attorneys and paralegals, we specialize in negotiating with creditors to reduce the amount of debt the individual must repay. We will contact each one of your creditors and/or each collection agency to stop the late fees, penalties, and premiums building up on all accounts. We will establish agreements so that the credit card companies and collection agencies will contact the **Frederic C. Goetz, Esq., LLC** instead of the consumer. We also work to obtain the consumers credit report and work to remove any misleading, unsubstantiated, or incorrect items on our client's credit reports. This is a very important service that can be utilized by the consumer to restore credit ratings and create a plan for future financial management.
