SWARTZ & ASSOCIATES

"I have been very impressed with the work Digital Compass has done for us – on a number of levels. They did an excellent job testing and configuring our phone system to make sure everything is working correctly and is integrated with our CRM platform properly.

Lastly I have been very impressed how everyone on the project has adapted when deadlines or deliverables have been re-prioritized. I really get the feeling their staff is energized by the success of our project."

– Belinda Gibbons, President
