Dealing With Creditor Calls

About J. Hass Group

The J. Hass Group, LLC was formed to perform loss mitigation services for individuals who are heavily in debt.

We have grown from a single office in the home to an enterprise with nearly 100 offices nationwide. Our Scottsdale office now occupies an entire floor of the building and employs 50 + support staff whose only function is to assist you.

We negotiate and settle an average of well over \$2 million in consumer debt each month. Additionally, we settle nearly 600 individual creditor accounts every 30 days.

We currently have over \$389,577,058 in debt under negotiation.

In 2008 we grew from 19 marketing offices to 98, an extraordinary accomplishment.

That success is attributed to the creation of a strong support system designed to assist you during a troubled period. With over 100 hundred years of combined experience you are guided by the steady hands of seasoned professionals.

The attitude of our customer service department is: "We are here to help you, you are not alone anymore!"
