CDS Client Services Tapped for Large-Scale Debt Resolution Job

CDS Client Services Is Being Retained by Macey, Aleman, Hyslip & Searns to Perform Debt Resolution Service for Consumer Clientele

IRVINE, CA--(Marketwire - December 4, 2009) - CDS Client Services Inc. has been retained by the national law firm Macey, Aleman, Hyslip & Searns to perform debt resolution services for consumers enrolled in the firm's debt reduction program.

Macey, Aleman, Hyslip & Searns, also known by the trade name Legal Helpers Debt Resolution, is one of the largest bankruptcy attorney firms in the United States with offices throughout the country. CDS Client Services, a debt settlement negotiation and service operation based in Irvine, Calif., operates in partnership with debt settlement program originators across the country to provide debt negotiation and customer support.

"We are extremely excited about the opportunities this partnership creates -- especially for our front end clientele," said Marc Penso, Managing Partner of CDS. "Our settlement originators will now have the ability to safely prospect and enroll clients in 50 states. And because we are an agent of the law firm, the consumer will get the same high level of customer service from us with the additional security of working with a very well-known (bankruptcy) firm. No doubt this will translate well in our negotiations and discussions with creditors.

"Not only does Legal Helpers have an impeccable reputation in the legal and consumer services communities, but they are a true 'brick and mortar' operation throughout the United States." Penso added. "Over the past year,

security and a true client and market operation throughout the United States, I think about over the past year, we have seen many good debt settlement operators experience absolute financial ruin when these legal 'networks' are unwound and shut down. Not only does the consumer and settlement operator suffer in these implosions, but they are an absolute black-eye for our industry. We are really very fortunate and excited to be part of a much better solution."
