Capital Debt Settlement Adds Debt Management to Their Debt Solution Offering

The California-Based Debt Settlement Company Is Adding Debt Management to Their Debt Help Offering

SANTA ANA, CA--(Marketwire - March 19, 2009) - Capital Debt Settlement is pleased to announce the addition of Debt Management to their debt help offering. In joint partnership with Allegro Law, Capital Debt Settlement now has the ability to evaluate the option of Debt Management as a possible solution for prospective clients. Marc Penso, CEO of Capital Debt Settlement, said, "We speak with hundreds of people every day. Each one is experiencing some level of financial hardship. Through this partnership with Allegro Law, when a client is experiencing modest cash flow concerns, we now have a program that might better suit their needs."

Unlike Debt Settlement, which seeks a 40% to 70% reduction to the overall balance of a consumer's unsecured debt as a means of avoiding bankruptcy, Debt Management focuses on reducing annual percentage rates and extending payment terms as a means of improving minor financial hardship.

Says Penso, "Both programs consolidate the debt into a more manageable single payment. From there, it really depends on the client's current income and expense situation to fully determine if either program is a fit or solution. In this economic environment, there is clearly not a 'one shoe fits all' solution. Since client commitment is a large reason for success in either program, we want to make sure the consumer is properly slotted from the get go."
