Debt Network USA has created a one of a kind, nationwide network of educated debt presenters capable of conducting a meaningful, face to face presentation on behalf of debt settlement companies with potential debt settlement clients anywhere, anytime, nationwide. Debt Network USA unveiled its network to the debt settlement industry at the 2010 Debt Settlement Leadership Conference in Las Vegas.

> "Face to Face Debt Settlement Presentations Available Anywhere, Anytime, Nationwide"

All of Debt Network USA's debt presenters must complete a rigorous training program. Each presenter is educated about the debt settlement industry and each debt settlement company's specific program. This ensures that each and every client enrolling in a debt settlement program experiences a meaningful, face to face presentation with an educated debt presenter and has a complete understanding of the debt settlement program.

Debt Settlement companies who enroll clients through Debt Network USA are no longer simply telemarketing. Instead, telemarketing becomes just one part of the overall sales process. Debt Network USA opens up an entire new world for debt settlement companies - bringing the debt settlement company and every client together to create a true connection between both parties. The seamless integration of Debt Network USA's services into a debt settlement company's business model strengthens the business' sales and compliance processes.
