Frequently Asked Questions

1. How does Payday Loan Debt Resolution work?

Debt Resolution works differently than Debt Consolidation. Debt Consolidation lumps all your debts into one payment, which is usually secured by some asset such as your home. However, it does not result in a reduction of what you owe to the Payday loan companies.

Payday Loan Debt Resolution is specific to the Payday Loan industry and may actually help you resolve your debts for 25-40% off of the amount you owe. Our RELIEF Debt Resolution Program also helps give you breathing room. We start by having one of our qualified counselors give you a free consultation to set up a program that will stop the excessive fees, the unwanted debits to your account, and the harassing phone calls. After you hire us, we design a plan that will give you 6-12 months to repay your loans which fits within your budget. We use our knowledge and skills to get the phone collectors off
